

THE WHEELS SPECIALIST

VERSION 1
2009/2010

30 YEARS OF PASSION

A marriage of modern, visionary thinking and hands-on experience could only birth a company set to make an impact. LF Works, marketer and distributor of alloy wheels and wheel accessories for export and import, is such a company.

LF Works was formed in 2008 by two genuine car aficionados who have spent a major portion of their lives wheeling and dealing in alloy wheels and accessories. Both founders brought a combined 30 years of experience to LF Works. Driven by a shared dream of providing top-quality, durable and at the same time, unique wheels, to where they are needed, they set out to be the best in the industry.

PASSION FOR QUALITY UNCOMPROMISED

An in-house design team introduces and maintains proprietary designs for a wide and growing variety of vehicles. LF Works takes pride in every product it markets. Strict quality control and customer satisfaction are given top priority. As a result, its products have gained acceptance globally.
